

Dear séance-participant,

welcome into the world of Physical Mediumship with Kai and Julia Muegge from Germany.

“The All-Chemists” (Spirit Team) do work with the medium since 2004 in the tradition of the Physical Mediums and ‘Spiritists’ of the European mainland, exactly in the tradition of *Rudi* and *Willi Schneider*, both famous Austrian Physical Mediums of the Second Generation. The *Spiritists* believe in the value of Spirit Communication without having formed a religion from in Germany!

The séance will be moderated by a trance-control, an old *Professor of Parapsychology* (Hans), who is permanently looking for the strict control of the medium, being performed by two controllers holding the medium on all 4 limbs when the phenomena in question have established inside of the séance room!

A strict sitter’s number restriction will moreover assure that everybody (incl. Medium and Controllers) has full advantage in witnessing the ongoings happening directly in front of them!

Due to the different socio-cultural backgrounds, the *modus operandi* of the Spirit Team is different to that of UK-based Physical Mediums: Several controlled experiments will mirror the presence and density of ectoplasmic compaction in the room, first in (semi-)darkness, then in red light.

The whole range of spirit-control induced phenomena after the Deep-Trance State-Induction is: Séance conduction by spirit scientists, raps & touches, ILP/Independent Light Phenomena, Interaction with and Levitation of Focus-Objects, Apports, red light entry and exposition of ectoplasm, presentation of its features, building of hand-forms, heads and faces of different density, materialization of crystals and precious-stones from the plasma, messages from spirit personalities.

Please note:

We cannot guarantee which phenomena will be presented! Moreover we cannot 100 % exclude negative séances, but they are unlikely – every condition necessary will be provided by us to the spirit team, that is highly reliable regularly!

CONDITIONS OF PARTICIPATION AND BEHAVIOUR RULES

BASICS

A previous thorough investigation into the topic is strictly recommended! If during the pre-talk it comes to light that sitters have no knowledge whatsoever in regards to the topic, the run of the séance can be affected negatively. The historic background and the phenomenology of this rarest form of mediumship shouldn’t be completely new to the sitters!

The Physical Medium Kai Muegge with Ectoplasm

Mainly it is about the appearance of a strange ethereal and infamous substance or fabric, called „ectoplasm“. The reality of that substance cannot be doubted due to its regular appearance within the last 150 years and extensively described in Parapsychology!

In our séances ectoplasm occurs partially as well in huge quantities, demonstrating its autonomy, after being detached from the mediums body.

This strange and rare physiology origins from the mediums organism and to guarantee its bodily integrity, the sitters need to follow certain behavior rules – for an undisturbed séance and the well being of the medium!

These rules are international standard at physical séances!

Their acceptance and your according behavior are absolutely required obligation!

During the séance the circle leaders say is rule!

The séance itself is held - besides the red-light parts - in semi-darkness. The room is then illuminated only by some glowing focus objects. Partially total darkness is applied also!

Picture 1: This photo shows how the medium is controlled during ALL the phases of phenomena that occur during the seance, the medium is controlled on the arms and legs to exclude that it is active during phenomena.

Picture 2 and 3: The photo shows how the organizer, in phases of particularly high Spirit activity in the room, also controls Julia and her control of the medium. The organizer may even block the medium with his own body - towards the room - in order to exclude definitively that nothing is being used, with which the medium could control the phenomena. Julia is singing all the time, so that you know where she is.
